# PROPER WASHING METHODS

## PRODUCTS USED

- (2) Buckets
- (2) Grit Guards
- (4) Flat Out wash pads
- (1) Block Party wash block
- Soap of your choice

## 2 BUCKET METHOD

Always use (2) buckets when washing with Grit Guards placed under each bucket. Fill one bucket with soap ("WASH") and one bucket with pure water ("RINSE")

### WASH BUCKET

### RINSE BUCKET

### EXAMPLE OF WASHING UPPER SECTIONS (SEE DIAGRAM BELOW)

- STEP 1** - Use Flat Out wash pads, one pad for each section.
- STEP 2** - As you move through sections 1-4 on the vehicle, drop used pad in "RINSE" bucket. Grab a new pad and proceed. Follow this same process as you move around the vehicle.
- STEP 3** - Once you've completed all 4 sections on one side of the vehicle, rinse out pads from your "RINSE" bucket and place in "WASH" bucket. Proceed with the same steps on the other side of the vehicle.

## EXAMPLE OF WASHING LOWER SECTION

- STEP 1** - Use Block Party wash block for bottom six inches of the vehicle. (Block Party measures 6" for ease of use.)
